

Beyonics Chonburi, Thailand

Beyonics Chonburi in Thailand offers high precision plastics injection molding and secondary process covers painting, printing, assembly, metrology equipment full automation measurement and tool room for repairs. It is located at Pinthong Industrial Estate 2, T. Nongkham, A. Sriracha, Chonburi Province, 15 mins away from Eastern Seaboard Industrial Estate, Rayong and 40 mins from Amata Nakorn Industrial Estate, Chonburi, the center of automotive industry cluster.

Manufacturing Capabilities & Services

Plastics Injection Molding

- Plastics injection machines (30 to 650 tons)
- Vertical molding machine (85 tons)
- Controlled environment molding
- High performance dehumidifier machine
- High performance spray paint with built-in oven
- Conveyor line Pad printing

Secondary Process

- High performance spray paint with built-in oven
- Conveyor line pad printing
- Heat staking
- Adhesive assembly
- Screwing, pressing

Testing and Inspection

- Automatic CMM program
- High-definition smart scope
- 10 microns precision pin gauges
- Melt flow test machine
- Moisture analyser
- Tensile & compression test machine
